MUSEO® Silver Rag™

FINE ART PAPER CRAFTED FOR YOUR FINEST WORK

When reaching for the highest level of photographic artistry, Crane's Museo® Silver Rag™ paper enables you to print and preserve your work in an optimal way. Using Museo® Silver Rag™, fine art and gallery prints from celebrated image makers show extraordinary depth and detail along with the semi-gloss finish of traditional fiber-based photo paper.

Two hundred years of American craftsmanship, a first-of-its-kind coating, and a 100% cotton furnish enable Museo® Silver Rag™ to meet archival standards while creating a new category of digital printing paper. Optimized for pigmented inks, Museo® Silver Rag™ brings out the best in B&W and color images, and delivers high Dmax and superior tonal range. These performance elements—combined with the finish and hand of fine art paper—meet the long-standing desire of the world's top printers and photographers.

Crane & Company, the mainstay and innovator in fine paper, now adds a historic component to digital printing with Museo® Silver Rag™, bringing you as close as possible to fiber-based photo paper. Museo® Silver Rag™ offers unique printing performance that matches the artistry of your most original and distinctive work.
